

Abbott Govt attack on MO32: What you can do

We need your help

Tony Abbott Government is attacking the living standards of Australian workers. Now our safety on the job is under threat.

As soon as the Abbott Government was elected it blocked the National Stevedoring Code of Practice (NSCOP), along with 12 other lifesaving codes.

Latest: the Government has now instructed AMSA to strip MO32 - the bible for waterfront safety for the past 80 years.

Get involved in our campaign!

Get involved in the MUA campaign. Volunteers are urgently needed.

As we saw in Victoria, *people power can make a difference*. The recent campaign involved thousands ordinary workers taking the message out to the community. We need your help.

Fill out the slip below to indicate what activities you can help with in the coming months.

I am willing to: (tick all that apply)

- Attend a campaign meeting in the branch to discuss political action
- Knock on doors with other workers such as nurses or firefighters to highlight the policies of this government
- Participate in a phone call blitz at the branch
- Join a local community union campaign group in my area
- Attend a protest or rally
- Join a political party
- Any actions – just ask me
